COMMON AREA SAFETY MEASURES

What is GVLA doing to keep the common areas clean?

- Our team has established a thorough cleaning protocol for staff to follow throughout the day to ensure equipment and all areas of our common areas are cleaned and sanitized. These protocols have been developed based on measures recommended by our county officials and the CDC. Our team will be cleaning all common areas throughout the day and every morning prior to opening with cleaning products approved by the CDC.

What are residents responsible for cleaning?

- We are requesting that residents please disinfect all seating areas and/or equipment after each use. We are also asking residents to wash their hands frequently and/or use hand sanitizer. Sanitizing sprays, paper towels, hand sanitizer and touch-less trash cans are provided.

Do I need to wear a face covering while enjoying the common areas?

- Cloth face coverings are recommended for entering, exiting and socializing within our common areas. You are not required to wear them while swimming, working-out, etc.

What are the physical distancing guidelines?

- We are asking all residents to maintain a 6-foot distance between themselves and others as recommended by the CDC. We have implemented procedures to help ensure these guidelines are respected including visual reminders and/or equipment closures.
